"My Star"

In an instant, it flashes by
That magic moment that can change a life
We're children of the same sign and time
Born to boredom and blank minds

I tell myself that it isn't real
'Cause how can you ever get ready
For how good a kiss could feel

You could be my star

Send you an angel before it is too late
'Cause I need help to find the gate
Please put your spell on me

Give me X-ray eyes so I can see
I tell myself that's what you have to do
'Cause I've been waiting all my days
Just to find someone like you

You could be my star

You could be my guiding light forever
You could be my shining bright lover
You could be my sweet soul savior
