Tonight I'm going to testify that everybody's going to
be alive
So sick of doing time so please, please won't you fill
my mind
Tonight I'm going to be alive down on the floor for
another round
Like lips kissing in the moonlight

Tonight I'm bound to testify to all my love and all my
life to you
Grab my hand and hold on tight

We're all superstars, yeah that's what we are
96 tears and everything's in here for you

We're all superstars, yeah that's what we are
96 tears and everything's in here for you, yeah

Tonight I'm going to feel alive licking your neck and
doing fine
Passion is the biggest crime so come on down to the
subversive sound
Tonight were going to feel the heat, right now between
the sheets
Lovers in here strike up the beat

We're all superstars, yeah that's what we are
96 tears and everything's in here for you, yeah
