(Now!) Now is the time to set things right

(Now!) Now is the time we should unite
We don't need revolutions
we just need to open our eyes
Revolution is no solution we ought to realise.

(Now!) Now is the time to set things right

(Now!) Now is the time to see the light
Looking back to see the future
And to rid the age of nuclear
Now is the time to set things right.

Take a look around
what a mess we're living in
God created love
and man
he created sin
Taking from the earth
but never putting in
Now what becomes of man when he has used up
everything'

(Now!) Now is the time we should unite
