Sad girl,
You look so sad.
Did he break your heart?
Gee, that's too bad.

I guess,
Now you see,
How our love could be.

Sad girl,
Forget that guy,
Come on let's smile and,
Please won't you try?

Get a hold of yourself,
Come on and,
Find you someone else.
(Open up!)
Open up your heart, girl.
(Open up!)
We can make a brand new start.
(Open up!)
Please don't cry,
Just grow up,
And find yourself another guy.

Sad girl,
Hold your head up high.
Things are gonna change,
I know it,
As time goes by, because...

That's the way it goes.
Everybody knows.
Everybody's somebody's fool.
And you're no exception to the rule.

Your days gonna come,
I know it..
[Fade]
