Weep they will - will the lads down the street  
When they find (that) you're promised to me

Weep they will - as their hearts lose a beat  
At the thought you'll no longer be free

Oh smug, am I - warm and snug, am I  
When you're close in my arms - just like this  
It's so easy to see - they're jealous of me  
There's so much love - they will miss

Weep they will - at the sound of the news  
That we're seen all over the town  
Eyes will fill - but they still will refuse  
To believe that you've turned them all down

I don't blame them - I don't blame them  
They've lost a sweet victory  
And (Oh) weep they will - oh weep they will  
When they find (that) you're promised to me
