I used to have no one else around me
I was too free, if that's possible to be
No safety, is what I mean
No solid foundation, to keep me.

But that sun is peeping out of the sky
Where it used to be only grey
The wolf is getting married
And he'll never cry again,

Your smile, makes me smile
Your laugh, makes me laugh
Your joy, give me joy
Your hope, runs towards me X 3

Even when something
Terrible is happening
You laugh and that's the thing
I love most about you
