What is the meaning, the secret behind signs I've read
all my life
Fire, earth, air and water, they talk to the wise...
All of these years, void and sadness were friends to
your misery and pain
Lonely days of delusion and cruel make-believe sowed
a shade deep inside
Times are ripe to learn all of the answers and seize the
day at last

The quest for life heavily weighed on your shoulders,
Guilt of the ages encumbered my soul
Hard years of fighting eluded your searching
Striving for peace I found war on her wake...

Deny this age of broken dreams, feel the surge of
power heal you from within
Be yourself a receptacle of light
Embrace your gift, the long lost tunes shall flow forth,
Your voice will rise into the wind
Bathe into the silver gleaming light of the new day

Visions of heavenly beauty await far beyond human
reach
Marble temples and ivory towers raised to defy the
higher skies
Crystal bells toll proclaiming salvation, a spring that
never ends...

Your quest for life's bound to reach for the heavens
Dark mortal ages will not drain my soul
(Though years of fighting eluded your searching
The path has been laid, a new dimension awaits...

Into the age of golden dreams, feel the surge of power
heal you from within
Be yourself a receptacle of light
Embrace your gift, the long lost tunes shall flow forth,
Your voice will rise into the wind
Bathe into the silver gleaming light of the new day
