Verse:

Saying I love you the first time in a garden covered with
snow

When I saw you smile I could feel the winter fade

Chorus:

It's easy to fall apart in this world of broken hearts

There's fire at every turn I walk right through and
not burn

With your love keeping me strong

Verse:

Now it's warm in the afternoon the garden is ready
to bloom

Mountains and valleys, cities and dreams, there by my
side through it all

Walking the edge you're keeping me safe

Chorus:

It's easy to fall apart in this world of broken hearts

There's fire at every turn I walk right through and
not burn

With your love keeping me strong

Bridge:

When illusions fall away from my eyes you're the
only thing that's true

Through storms and change, and acid rain I'll keep
holding on to you

Chorus:

It's easy to fall apart in this world of broken hearts

There's fire at every turn I walk right through and
not burn

With your love keeping me strong

With your love keeping me strong

With your love keeping me strong
