1, 2, 3, 4 We don't rock we rap  
It's like that  
You thought it was gone  
But now I'm back  
Standin on stage in a hell of a rage  
Fake rock N rollers put you back in your cave  
I don't like rock N roll I never did  
Didn't evne like when I was a little kid  
You's a longhaired freak  
Seven days a week  
Making money in leather  
I make money in sneaks  
I don't like rock N roll cause rock is rambling  
Rather hear rap cause rock is handling  
Long haired suckaz get out of my face  
Cause me and Code Money running the place  
We RAP!  
We don't rock we rap

1, 2 3, 4 (4x)

You is capastetic  
You know you can bet it  
I take you rock N rollers man you never get wet it (?)  
Code cut the records down to the bone  
I'm the only MC that rock the microphone  
For your information, in this nation  
It's all about that rap creation  
Another motivation, domination  
I'll be I'll as innovation  
It's a killer, no it's a thriller  
Yo Code how about a miller
