Last night we had an argument
Afterwards Im feelin pretty bent
Then I took a drink and I didn't think
What was in store for me
You don't know how shell take it
Will she cherish your heart will she break it
You are everything and everything is you

You are everything
And everything is you
You are everything
And everything is you
You are everything
And everything is you
Baby tell me are you playin me
When you're lovin me
When you're holdin me
And when you're f me
Are you playin me are you playin me
You are everything to me
Im wondering if you will see
That I will love you always

You are everything
You are everything
You are everything
You are everything
Break it down
Baby girl you tellin lies
Cause when I looked you in your face
I can see Im on your mind
And it don't matter what other h may say
I know your love is blind for me
Every b needs a thug n in their life truly
Could it be you enjoy me f you
While you be lovin trick and destroy us mentally
That's why they freak wit me frequently
Love is life
Naw n life is love
Take the baddest b ice her up
After the tour tell her keep in touch n dats what's up

Being nokia's a bit much
Got b over seas that love to f
Got b in the states that love to suck
So what the f yall want from me
Ghetto celebrity from b more
Murderer do or die from the ny
Now everybody get right n o k l o baby
R u l e baby know a lot of yall b hate me
Cause you can't relate to me
What the fuck you want from me
Let them h know not a thing
Ice the wrist neck ear and rings
Cause you know

Chorus

You are everything
