Na na na ohh
Na na na ohh

I remember the first time I met you,
We started off as friends and it came too,
Fellahs between me and you.
I don't know girl, do we even try.
We started hanging out constantly,
Being with you makes me happy.
Ohhh and then we had to go,
Back to our separate homes, were we felt alone?
Would you do?
Would you do all again (all again)
If you knew what you were getting in (ohh yeah)
I feel like I know how the story ends

Chorus:

I was a day late in the harpy shore from love,
You're the girl every man could only dream of.
If I had one chance to change my life,
I would have you by my side,
But I have to realize (have to realize) that you never be
mine.

I want you to take good care of your man,
Just wishing it was me,
Girl instead of him.
Ohh it would be so right,
But I never known what the feeling is like,
I see you with him by your special face,
I wanna share the time but there is no me.
Oh, it will feel so right,
But that's a fantasy.
Another life?
But would you do?
Would you do it all again (all again)
If you know what you were getting in (getting in)
I feel like I know how the story ends

Chorus:

I was a day late in the harpy shore from love (love, so in

love with you)
You're the girl every man could only dream of
If I had (girl) one chance to change my life
I would have you by my side (have you by my side)
But I have to realize (have to realize) that you never be
mine

Would I do if I never have met yah?
How would you feel if I told you I love yah?
How will we be if I just wasn't so late?
Girl my reason of loving is you
I'll do anything that you need me to
How do I live in this life without you?

Chorus:

I was a day late in the harpy shore from love (day late
in the barby shore from love)
(you're the one for me) You're the girl every man could
only dream of (you are my everything)
If I had (girl) one chance to change my life I would have
you by my side (have you by my side)
But I have to realize (have to realize) that you could
never be mine (that you could never be mine)

I was a day late in the harpy shore from love (harpy
shore from love)
You're the girl (your the girl) every man could only
dream of (that I can only dream of)
If I had one chance (if I had one chance) to change (to
change me yah) my life I would have you by my side
(be by my side)
But I have to realize (realize like a man that I gottah
face up)
That you never be mine (its hard I know man but I know
I gottah)
