Too Close To Heaven

reswick/werfel/muscat/muscat/muscat

look at us here together
look at how good, how good things can be
couldn't get any better
it's almost too good, good to believe
I keep hoping the gods don't turn the page
that the hand of fate won't come
and take it all away
is there really this much happiness
that is allowed one girl?
or am I getting...
too close to heaven, too good to be true
I'm feeling like I must be getting
too close to heaven when I'm with you
I know, if only I could stop the world from spinning
if we would just stay beneath these stars
if I could stop the clock at this minute
I'd keep you right here, here in my arms
I keep hoping that I never get that call
I keep praying that it's possible to have it all
am I reaching for more happiness
than is allowed in this world?
tell me, am I getting...
too close to heaven...
I know if I could I would stay on this mountain
with the angels all around
I can't bear the thought of losing
that the best thing that my heart has ever found
too close to heaven...
I keep hoping that the gods don;t turn the page
that the hands of fate won't come
and take it all away
have I taken more than my fair share
of what's allowed one girl?
or am I getting...
