"Clarity"

stepping out of the car into
thriving emptiness where nothing seems right
it must have been 20 before it started
nothing seems real until all eyes are on me

educated actions take over
until the moment where true honesty shines through
and in your heart it all makes perfect sense
until the moment of clarity

times like these
grip your throat and stomp your heart
leaving me with no voice
and no breath
I'm just drowning in confused emotion
I dont know where to look
where to stand
and how to feel

stepping out of the car into
thriving emptiness where nothing seems right
it must have been 20 before it started
nothing seems real until all eyes are on me

and in your heart it all makes perfect sense (x4)

times like these
grip your throat and stomp your heart
nothing seems real until all eyes are on me
