Weight of days lost, holding you down
You'll look for me, but I won't be found
The bluebirds flutter in my chest
Oh, they want to sing...
You'll have to break me open to hear anything

Before the world dies at my door
I'll break the sky, for you and I are going nowhere
Kiss goodbye, a dozen times before we get there
Why do I need anyone else, when I can break the sky
myself?

Won't be haunted by dreams I've deferred
Won't set my heart frozen in amber
The love you always seem to find is syrupy sweet
One taste and you've made up your mind
Too ripe to eat.

Before the world dies at my door
I'll break the sky, for you and I are going nowhere
Kiss goodbye, a dozen times before we get there
Why do I need anyone else, when I can break the sky
myself?

Fear will hold you back
If you believe in that
Fear will hold you back
If you believe in that

Fear will hold you back
If you believe in that
Fear will hold you back
If you believe in that

I'll break the sky, for you and I are going nowhere.
Kiss goodbye, a dozen times before we get there.
Why do I need anyone else?
Why do I need anyone..

I'll break the sky, for you and I are going nowhere.
Kiss goodbye, a dozen times before we get there.

Why do I need anyone else, when I can break the sky
myself?
