Rain falls, quickly wetting my hair, and clothes  
My cries fall upon her deaf ears  
More tears  
Let me in, please it's cold  
I'm freezing out here, I miss you my dear.  
You're all his, and I'm all your's  
Like it or not, I'm all you got

Everyone will make mistakes  
Without the sour the sweet wouldn't taste so...

Sweet tangerine  
Will you please come back to me?  
Cause I don't think that these feelings, are gonna leave

Light cuts through the clouds  
And haunts me like bad dreams  
Outside, looking in  
I'm feeling lost, and cold as a sin  
A shread of hope, a little bit of sweetness  
Anything please, except for defeat  
If I could, I'd lock you up, and toss out the keys  
It's just you and me

Everyone will make mistakes (And I know I have)  
Without the sour the sweet wouldn't taste so...

Sweet tangerine  
Aill you please come back to me?  
Cause I don't think that these feelings, are gonna leave  
(yeah, yeah)  
Sweet melody  
You'll be singing in your sleep  
But this time you're not listening, to a word I say

Crept through the curtains, as quick as the cold winds  
Slowly exploring the room where you sleep  
The stir of your portrait, the passing of your scent  
Left me no choice but to stay

I will dissolve into the dark beneath your bed

My hands will wait, for a taste of your skin

Sweet tangerine

Will you please come back to me?

Cause I don't think that these feelings, are gonna leave  
(yeah, yeah)

Sweet melody, you'll be singing in your sleep

But this time you're not listening, to a word I say

A Word I say
