

## Husking Bee

### "Share The Joy Of Our Tour"

Visit "[Share The Joy Of Our Tour](#)" on MotoLyrics.com

We're been together a long time Riding on a car  
heading the same way  
Strange scenery in the morning light a distant grown in  
familiar night  
we're live together, and go thru the same thing  
if only this could just go on

And so, now let's go let's be going  
and birth a new encounter

we're been free for a little while the air looks  
transparent  
we don't care what the world thinks and forget our  
usual routine  
let's head on and share the joy of our tour  
if only this could just go on

Speeding the highway in the dead of night Cruising  
along the distant glow  
will my voice reach at glimmer of the foot of a  
mountain?  
And we must come back at once. We must come back  
to the restless city

And so, now let's go let's be going  
Let's be singing uh ah!
