Dear
It's a lot
Like the way that we don't talk
Every day that I'm away, I will be there
In the parking lot with the drugs we bought
The hope I had, I haven't got a prayer
I haven't got a prayer
We're small and feeling used
You stare and stay confused
Don't say what we've become
And dear I promise you
A change is overdo
By the time that I arrive, I am undone

Whatever I do, whatever I say
To make you feel better
Every hour of every day
Oh it's all I ever

Here
It's about
The things you see when you figure out
What the hell is going on
And bury me beneath
The overpass and the empty streets
It's better when I'm gone
And when in the dark you say my name
I called you and you came
And it's more than I can bear
You're lost and left alone
And hope is never home
What's wrong is everywhere
Whatever I do, whatever I say
To make you feel better
Every hour of every day
Oh it's all I ever
Hand me your hope
Just stay together
And they're all down watching you drown
It's now or never

Ask me I'm sure I'll tell you how

Sing together now
And it leaves me
Ask her I'm sure she'll tell you more
Sing it like before
Believe me, believe me

Whatever I do, whatever I say
To make you feel better
Every hour of every day
Oh it's all I ever
Hand me your hope
Just stay together
And they're all down watching you drown
It's now or never
(Repeat)
