"Private Number"

Visit "[Private Number](#)" on MotoLyrics.com

You got the key
My private number
Exclusively
There's no other heart for me

You're the combination
The secret word that unlocked my door
The remedy to ease the pain
You're everything that I've been wishing for

You keep a smile on my face
My heart's in overdrive
But when the others try to get inside (Get inside)
I've got nothin' to say
And that they're wastin' time just idle talkin'
They could never fill this space 'cause

You got the key (You got the key)
My private number
Exclusively
There's no other heart for me

I've got an unlisted telephone
So anytime I hear it ring
It has to be you that's calling
Don't have to hide behind the answering machine

I'd like to feel your way
For making shadows in the night
And through the curtain lace your light is seeping
It shines bright as the sun
You always leave a trace of what I'm thinking
You'll always be my number one 'cause

You got the key (You got the key)
My private number
Exclusively
There's no other heart for me

You got the key (You got the key)
My private number

Exclusively
There's no other heart for me

Anytime I feel that we
Can make you love connection
You'll never find a busy sign
The line is clear to my affection

Private number
Private number
Private number
Oh, oh, oh, oh

You got the key
My private number
Exclusively
There's no other heart for me

You got the key (You got the key)
My private number
Exclusively
There's no other heart for me
