Breakdown

Time served, time still remaining,
Time to let it all go,
Time heals, why am I complaining?
It's all a script that I wrote
It took some time to screw up my life
Can't see me, it's too dark in this light

CHORUS

Still I can't break down just cause you're not around

Feel heat, sparks fly beneath me,
All my bridges half burned
Cold feet, always retreating
All my lessons half learned
I'm a big boy, I should know better by now
A misfit toy, a song with no sound

CHORUS

BRIDGE

Was that love?
Did I get that part right?
Was I just trading up for a less lonely life?

Oh, I feel weak, content deleted
All my guts busted up
There's no truth
No resolution will break the ice in my blood
I can't sleep, what else is new?
And painting the town really sucks without you!

CHORUS

I won't break down, just cause you're not
I'm breaking down, cause you're not around
You're not around
You're not around
