I wont ever get you back  
Your always on the attack  
No matter who you choose to upset  
I like you

I dont want to dissapear  
You do it every year  
So lend me some time  
Cause I dont know  
And I'll never want you

And I dont like to pass you by  
But everythings inside  
Everythings all mine  
I just want to have your plane  
So everybodys the same  
So everybodys the same

So build me up and bring me down  
When everybody's around  
Its so much harder to be who you wanted around me  
Maybe someday its alright  
Nobody ever gave up the fight  
Its easy to dream but I dont know if you'll ever want me

And I dont like to pass you by  
Everythings inside  
Everythings all mine

Build me up and bring me down, down

I dont want to dissapear  
You do it every year  
So lend me some time  
Cause I dont know and I'll never want you  
When he lets you down darlin I'll be around  
And I'll want you
