Oh baby please
Don't stay away too long
Come back to my arms
Right back where you belong

You know I love you
And that I want you to be my girl
You know I love you
And that I want you to be my girl

Don't say good bye
Don't make me cry
I need you so
Oh please don't go

Oh baby please
Why stay away so long?
You know it hurts me so
Why do you do me wrong
I love you true
Oh how I want you to be my girl

Don't say good bye
Don't make me cry
I need you so
Oh please don't go

Oh baby please
Don't stay away too long
Come back to my arms
Right back where you belong

You know I love you
And that I want you to be my girl
