I watch you sleep
And you seem so content
And I wish that I could tell you
Cause the feelings' so intense
When I try to say the words
Something happens deep inside
I think that I'll back down again
I can only try
I know what I know
I believe that it's true
The words are right there
Just can't say them to you
I just can't believe how frightened I get
And I've tried to tell you
But I haven't said it yet
We've been down this road before
When I think I've found my way
N' I can't remember
Wanting to the way I do today
I know what I know
I believe that it's true

The words are right there

Just can't say them to you

I know what I know

I believe that it's true

The words are right there

Just can't say them to you

I'm committed

So committed

I'm committed

I know what I know

I believe that it's true

The words are right there

Just can't say them to you
