"Save Me"

Save me from myself

Cause I can't control myself

I've invaded my own mind

And there's things I cannot find

Where am I today?

I think I've gone away

But I really cannot say

No I cannot

CHORUS:

Save me

Come on and save me from myself

Save me

From the things I cannot help

All by myself

Little tricks I play on me

I'm surrounded but I can't see

Meet myself outside myself

Then I run and hide

Touch my hand I pull away

What I feel I just can't say

My body shakes and then shuts down

Pretend there's no one around

CHORUS:

Save me

Come on and save me from myself

Save me

From the things I cannot help

All by myself

Save me

Come on and save me from myself

Save me

From the things I cannot help

All by myself
