Come on let's dance. I want to dance with you
Come on let's dance. Nobody else will do
I want to hold you close and feel you next to me
When the music starts it's easy as 1 - 2 - 3

Come on let's dance. I love to dance with you
Come on let's do those steps like we used to do
Let's get out on the floor. Hey, we have done it before
Just hold my hand and we'll dance forever more

Bridge:

Please don't say no. I need to dance with you
I want the world to know, nobody else will do
When I hold you close and you say you'll be mine,
You're the only one that makes me feel so fine

Come on let's dance. I want to dance with you
I want to hold you close the whole night through
We can rock
