A lot of people sing about being home for Christmas  
A lot of people dream about a white Christmas  
But all I want to say, in my own simple way is  
Thank you for being here this Christmas.

The tree is always here  
The lights bring good cheer  
The songs are the same, you recognize their names  
But none of this would do, if I couldn't see you  
Thank you for being here this Christmas.

You came along way  
It took most of a day  
We had a lot of snow. Didn't know if you would show.  
but then you arrived. My heart came alive.  
Thank you for being here this Christmas.

I know that you can't stay much more than a day.  
The time just flies by and then we say "good bye".  
We had a lot of fun and now it's time to run  
Thank you for being here this Christmas

Thank you, Oh Thank you,  
Thank you for being here this Christmas
