FIRED UP

words and music by Dell

Shut up, listen up
Ya got me fired up
Venom is strong
Where I don't belong
You play with sticks
My fire's from above
You may get burned
By the flame of love chorus:
Are you afraid of me
Or afraid of your heart?
That's why you hesitate...
Or is it my touch
That will make you
Quickly disintegrate? Smile with your sin
Tell me when I begin
Stomach tied up in knots
Hope your body rots
Lead on by a string
Connected to nothing
Don't care if I die
As you pass me by chorus:
Are you afraid of me
Or afraid of your heart?
That's why you hesitate...
Or is it my touch
That will make you
Quickly disintegrate? If you're smelling smoke
Don't begin to choke
'Cause you're gonna learn
When I start to burn
Fighting things you can't see
You fucked with more than me
If you can't believe
Then you'd better leave
And don't try to laugh
It's you I'm firing at
