[Talking]

It's all hood nigga, motherfuckers must of forgot  
We real niggaz real life, around this bitch  
Go through this shit everyday, ain't no motherfucking  
play thang  
Niggaz need to use they brain mayn  
Coming from niggaz, who been through that shit  
Hey yo Redd, give 'em the game

[Yung Redd]

Ya already know, S-L-A-B  
I'm at a loss for words, fuck you pay me  
H.S.E., yeah the album coming  
I got that Hemi in that Magnum humming, plus them  
Davin's running  
Black on black, the ceiling pushed back  
One grind at a time, mayn I can't look back  
Stomach never got full, off hopes and dreams  
So I keep my grands going, trying to save my green  
March to my own tune, nigga do' rate me  
Bread stacked to the ceiling, I'm so Yao Ming  
Hit body ain't a gangsta, and that ain't you  
Falsifying your hood stripes, nigga that ain't true  
Naw street nigga, like I'm homeless  
The reason why I tell niggaz get on they grind, because  
I'm on it  
Calm as a bitch, pray you don't get caught  
Anybody with a strap, will make you hole that throat  
and that's real

[Hook x2]

Loose sips sink ships, better keep quiet  
Late night in my hood, yeah them niggaz riot  
Car stopped, windows cracked hear them thangs firing  
It's all hood nigga, it's all hood nigga

[Trae]

The hood done made me a man, and everyday I be  
running to save my life  
And find myself right back to the block, where niggaz  
be known to live it

Shife

And whether I'm rich or whether I'm broke, I still been  
blessed aside the

Trap

Where some of these niggaz done lost they life, to put  
they name across the

Map

That's why I post up on the corner, watching all of my  
niggaz surround us

Ready to spray a wave or something, that'll have all  
them niggaz drowning

Guard your head homie, before you be dead homie  
Plus them niggaz you running with, might be working  
with the FED's homie

That's why I roll with my immediates, like we all that we  
got

You disrespect and watch how fast, these niggaz open  
up shots

We in the light like kiss the daytime, trying to grind to  
get it on

These pussy niggaz out of they league, but fuck that  
shit they out they

Zone

See that's the rules inside the gutter, they don't give a  
fuck about ya

They gon use ya till they can't, then they gon do the  
rest without ya

But I'm prepared to play it raw, and show they ass it's  
A.B.N.

So yeah these niggaz got me fucked, but I'ma let the  
games begin

[Hook x2]
