See my eyes
see my fears

See my face and then see my tears.
Compare with yourself you regard as a man
look at me feel the same if you can

enjoy your health and a lot of wealth

but listen my voice!

See my
eyes see my fears.
Look in my face and the see my tears.
Don't show to much pity much I've seen
try to accept me
a wish very keen.
Treat me like a fellow I need you
and listen my voice!

Orgel -- Brass

See my eyes
see my fears

see my face and than see my tears.
You know social life of course you act this way
you spend some money to protect a nice day

but this's not the help I need so strong
so listen my voice!

Listen my voice
listen my voice
