

I Still Believe

I've been looking for a light
At the end of this tunnel
I've been searching for a sign
To lead me home

Too many endless nights
Of sorrow
But on the other side of this
I know that my heart will live

I never saw a man that walked on the water
I never met a man that walked on the water
But I still believe

I don't really know what tomorrow will bring
But I'm open to all possibilities
'Cause I still believe

And the more I live my life
The lesser I question
All the things I just can't see
Right in front of my eyes
So I take that leap of faith
And learn a few lessons
Time showed me that
What you give is what you get

I never saw a man that walked on the water
I never met a man that walked on the water
But I still believe

I don't know the answer to my prayer
But I keep kneeling down like somebody is there
'Cause I still believe

(Now, listen)
Well, I guess I could give up
'Cause there are days I wanna run away
From everything
But what good would that do for me

'Cause I, I, I still believe

I never saw a man that walked on the water
I never met a man that walked on the water
But I still believe

I never saw a man that walked on the water
I never met a man that walked on the water
But I still believe

I don't really know what tomorrow will bring
But I'm open to all possibilities
'Cause I still believe

I never saw a man, never saw a man, never saw a man,
Who walked on the water
I never saw a man, never saw a man, never saw a man,
But I, but I, but I believe
But I, but I, but I believe
But I, but I, but I believe
