

I-94**"Somewhere Else"**

Visit "[Somewhere Else](#)" on MotoLyrics.com

If I could see you without eyes
Would you be any clearer
If I could keep you by my side
Could you be any nearer
Child slowly beating
To a song that sounds the same
But it's me you have to blame

If this hate
Why don't you break it
If this is love
Come on and make it
But if you feel you don't believe it
I'm gonna' take it somewhere else

How can you save my skin from snakes?
Watching the words come crawling
Throwing a light on my mistakes
When I could of flown this open cage
And fly for freedom
In a world that seems the same
When it's me you have to blame

If this hate
Why don't you break it
If this is love
Come on and make it
If you don't feel it
Don't believe it
I'm gonna' take it somewhere else

A million words you write on the walls
I have not found
And baby I try to read them
But I can't see them now

If this hate
Why don't you break it
If this is love
Come on and make it
If you don't feel it

Don't believe it
I'm gonna take it somewhere else

If this hate
Why don't you break it
If this is love
Come on and make it
If you don't feel it
Don't believe it
I'm gonna' take it somewhere else

Put it together
Be here forever
It's getting better
I'm gonna' take ya
The planets are turning
The fires are burning
And all that is bleeding
But I still believe it
I still believe it
