Tell me I'm wrong,  
Tell me that you're strong,  
Tell me it's all over,  
Kick me into overdrive,  
Throw me a lifeline,  
Get me on my feet,  
Take me to the other side,  
Get me off the street,  
Beggin you please now.

I need something in my life,  
That fill my eyes with light; my ears with sound  
I need something that feels right,  
Gonna hold on to my life this time around.

Tell me a way,  
Tell me I should stay,  
Tell me is not over,  
-don't know what it says-  
Tell me it's OK now,  
Something that I need  
Take it off my shoulders,  
Get me off my knees,  
Beggin you please now.

I need something in my life,  
That fill my eyes with light; my ears with sound  
I need something that feels right,  
Gonna hold on to my life this time around.

I need something in my life,  
That fill my eyes with light; my ears with sound  
I need something that feels right,  
Gonna hold on to my life this time around.

Gonna hold on to my life this time around.
