And I know not to take these every day,  
Well I'm sure it could take my pain away,  
Yeah they say you can do it on your own, on your own  
take a pill,  
All I heard when I was young I was young,

I know, I know, yeah yeah yeah

And i know if I make it thorough today  
Well I've flushed all my feelings down the drain I'm  
afraid I'm a clown when I am down, I am down come on  
take a pill and settle down, settle down

I know, I know, yeah yeah yeah  
And I know not to take these Everyday.
