She's gone and She's gone so lost with him
I'll wait and I'll wait 'til my ship comes in
Her warm embrace you'd carry me
What never was has turned on me and now without her

What do I have to do?
What do I have to say?
Who I have to kill?
To make you feel this way
What do I have to do?
What do I have to say?
Who I have to kill?
To make you feel this way
Make you feel this way

He holds her then they fall to sleep
She holds my heart echoes so deep and now without
her

What do I have to do?
What do I have to say?
Who I have to kill?
To make you feel this way
What do I have to do?
What do I have to say?
Who I have to kill?
To make you feel this way
Make you feel this

She'a My stars come out
She's My everything ohh...
But I can't tell her now
What I should have said

Ohh...

What do I have to do?
What do I have to say?
Who I have to kill?

What do I have to do?

What do I have to say?
Who do I have to kill?

When your plans and your dreams
Suffocate everything
He's going to break your heart
When you're shattered and broken
With the mark of a token
Remember how I fell apart

Cause I'm not crying anymore (What do I have to do?)
What do I have to say?
I'm not crying anymore (Who I have to kill?)
To make you feel this way
What do I have to do?
What do I have to say?
Who I have to kill?
To make you feel this way
Make you feel this
