headache on my two way call the doctor
medicate my conscious
cant be bothered, dear

Honey how you bug, its quite pathetic.
it numbs me like a local anesthetic.. yeah.

you could die i'd soon forget
your delusion is my regret.
bad intensions i never meant,
for my tolerance to be misleading
i wont lose sleep if you disappear
silly boy i feel your end is near
well maybe i didnt make it clear
I'd rather be miss solitary

Pull down my halo, you're putting me through hell
AGAIN AGAIN.
nobody's angel, i can't shake the demon i pretend

no easy way to put this you make me sick
i need another drink so you can stick around
cant help if i'm easily distracted
the way you nag nag nag
is unattractive, my dear...

you could die i'd soon forget
your delusion is my regret
bad intensions i never meant
for my tolerance to be misleading
i wont lose sleep if you disappear
silly boy i feel your end is near
well maybe i didn't make it clear
i'd rather be miss solitary.

Pull down my halo, you're putting me through hell
AGAIN, AGAIN
nobody's angel, i cant shake the demon i pretend

you could die I'd soon forget
your delusion is my regret

bad intentions i never meant
for my tolerance to misleading
i won't lose sleep if you disappear
silly boy i feel your end is near
well maybe i dind't make it clear
i'd rather be miss soiltary

pull down my halo
you're putting me through hell
AGAIN, AGAIN
noboys angel
i can't shake the demon i pretend

i won't lose sleep if you disappear
silly boy i feel your end is near
well maybe i didn't make it clear
i'd rather be miss solitary
