I've been beaming aboard her for a light year  
From a strange craft  
She's got a subtle touch on the silver key  
To a clockwork heart

I am your robot, I am your robot  
I am your robot man  
I am your robot, I am your robot  
I am your robot man

You went and flipped the switch and turned me positive  
When I was negative  
I've been stumbling around like a metal man  
On the graveyard shift

I am your robot and I'm programmed to love you  
My serial number is 44357
