Go jack rabbit running through the woods
You had a good night and you feel real loose
Heard they got you going round the goose creek shed
Gonna fill your belly full of buck shot lead
Go jack rabbit get the cabbage patch
Farmer left the back porch door on the latch
Heard you coming and he got his gun
You better go jack rabbit baby's got to run

Go jack rabbit running through the woods
You had a good night and you feel real loose
Gun fire breaking up the peaceful night
Jack rabbit lying in the cold daylight

Oh go jack rabbit running through the woods
You had a good night and you feel real loose
Heard they got you going round the goose creek shed
Gonna fill your belly full of buck shot lead
Oh go jack rabbit get the cabbage patch
Farmer left the back porch door on the latch
Heard you coming and he got his gun
you better go jack rabbit baby's got to run
