Kissing on the face of girls that never trusted you.  
Confession from the kid who claimed he killed the  
queen.  
I want to feel sorry for you but both of us know  
these days pass so slow. So I'm burning everything I  
own  
as if I owe you anything. Ripping down all the flesh  
from bone  
until there ain't anything left at all.  
Kissing on the neck of girls that want to advertise you.  
Conversations in the dark concerning collapsed  
attempts to lie.  
I want to feel sorry for you but you and I both know  
it hurts to be alone. So I'm unlearning everything I know  
until I don't know anything.  
This ain't no fucking ride running thin.  
Still burning everyone I know cos they don't know me.  
Ripping down all the flesh from bone.  
Who knows anything about life or passing on?  
Who's gonna miss this flesh when I'm gone?  
Hit me where it hurts. Hit me where it lasts.  
This will never make you happy, Lord knows I've tried.
