Fell down this old road and I don't care  
If you roll on your sides, I seen a ghost  
In the future, sometimes it gets hard to hide  
If you need somethin', don't let me know  
Subtle substance control turns to overflow  
I gotta get my connect

I saw her in the bathroom drinkin' vodka  
She must have been a sweet nothin'  
Dope let's her slide, looks she can't hide  
Heroin hands can't keep her clean  
She needs another way out

Let's drink until we come  
Later on we're sailin' on  
It gets to you when I say this stuff  
But I know what I'm doin'  
Just ask me what I'm doin'

We are alone, we are alone, we are alone  
We are together, fashionably numb

Drive this town into the ground  
Lose the places that we found together  
There's never nothing right  
There's never nothing right  
Let's stay connected

We are alone, we are alone, we are alone  
We live together  
Fashionably numb, perpetually spun  
Seen you breathin' out your eyes, surprise

We are alone, we are alone  
We live forever, forever, forever
