I've seen too many things I would agree  
This time I feel so hungry  
You turn me down when you say in this love  
There's no way out I said no, no  
How could you make me waste enough  
Did you think you higher  
So my time don't need you liar  
This time I feel so down, yeah, yeah

Saturday night I'll be alright,  
Even there's no sunshine bright light  
You keep me down till you call me baby  
But you should be my one x 2

All my day I can see in their eyes  
Seeking something or hiding their lies  
I'm kind of man who always says why  
For any trouble and it's up I said no, no,  
How could you make me waste enough  
Did you think you higher  
So my time don't need you liar  
This time I feel so down, yeah, yeah

Saturday night I'll be alright,  
Even there's no sunshine bright light  
You keep me down you ignore me baby  
But you should be my one x 2
