Well it be late on in the evening and I'm out on the  
outskirts of town  
Late on in the evening, I'm out on the outskirts of town  
I chews me a seed and I watch that evening sun go  
down

You know all last night baby, I couldn't sleep the whole  
night long  
I was up walkin' the floor baby, I couldn't sleep the  
whole night long  
I was cryin' for you, I was cryin' for me, I'm the one that  
done you wrong

Yeah when it's late in the day baby, you're tired, you  
done had enough  
Late in the day baby, you're tired, you done had  
enough  
You know I'll be waitin' baby, dial my number, baby look  
me up

Child when you're old and gray, you're back is bent  
your walkin' with a cane  
Oh when you're old and gray, you're back is bent your  
walkin' with a cane  
You look back and remember and you know I was your  
true lovin man

You know my little boy a cryin', beggin' me daddy  
please don't go  
I mean he huggin on my knee, beggin' me daddy  
please don't go  
You see he to young to understand, why mommy don't  
kiss daddy no more

Well it be late on in the evening and I'm out on the  
outskirts of town  
Late on in the evening, I'm out on the outskirts of town  
I chews me a seed and I, watch that evening sun go  
down
