That girl was struck by lightning
Now she's a headcase
She is always fighting
with the voices from outer-space

All my friends are automatic
All my friends are getting high

I'm so high on medication
The pills make living a lot fun
I'm still lost in my summer vacation
My dreams are burning out in the sun

Last night - She spit into the ocean
It was a wave that crashed into my face
I ended up in the hospital
She was erased from my brain

All my friends are automatic
All my friends are getting high

I'm so high on medication
The pills make living a lot fun
I'm still lost in my summer vacation
My dreams are burning out in the sun

All my friends are getting lonely
All my friends are getting high
All my friends are getting high
And I don't know why
