your animal function fine
don't question the simple design
the chemicals will seep in faster
if you're sterilized before you're captured

your animal will function fine
it was built by the cheap design
your miracle will come well shaven
to hypnotize the girls of Las Vegas

have fun with my machinery

your animal function fine
it was born into the usual line
billboards sell your family planning
to advertise the shine of your winnings

your animal will function...fine
a skeleton in the public eye
your skin must be contagious
to fertilize the girls of Las Vegas

have fun with my machinery

the chemicals will seep in faster
if you're sterilized before you're captured
