The cold sea turned my blood into water
I've got eyes for the president's daughter
Well she's in love with another man
He's off fighting in a foriegn land

My love life is ripe for the slaughter
A new girl will bite harder and harder

I, I, I'm in love with your daughter
She, she, she's got my head under water
I can't breathe without her arms and legs (no no)
I drop to my knees I start to beg (oh no)

Please please I want her

I caught a dangerous fever
Put me to bed by nine
Is there a nurse in heaven?
Is there a nurse in heaven?
'Cause when I get this stupid fever
She puts me to the bed by nine
My temperature is 107
Is there a nurse in heaven?

I, I, I'm in love with your daughter
She, she, she's got my head under water
I can't breathe without her arms and legs (no no)
I drop to my knees I start to beg (oh no)

Please please I want her

There's a white noise coming to the rescue
That girl's got me calling out a test tube
But she's in love with another man
He's off fighting in a foriegn land

I sell my future and I laugh girl
I gotta find a new girl to chase after
