They've been told the odds are stacked
Up high against them
Statistically they hear they're bound to fail

But that's a chance they don't mind takin'
Every day the love they're makin'
Proves to them there's got to be a way

So she, she just won't let
What people think effect her feelings
And he, he just don't understand
Why the world has stopped believin' in love

They finally found
What everybody else is needin'
So with all their might
They're holdin' on for life

It's all in how you look at things that matter
And as for them, their heads are in the clouds
But when they look down they clearly see

A glass half full and not half empty
They believe they've got what it takes

So she, she just won't let
What people think effect her feelings
And he, he just don't understand
Why the world has stopped believin' in love

They finally found
What everybody else is needin'
So with all their might
They're holdin' on for life

Arm in arm
(Arm in arm)
Heart to heart
They live as one
(They live as one)
They believe in love

So she, she just won't let
What people think effect her feelings
And he, he just don't understand
Why the world has stopped believin' in love

They finally found
What everybody else is needin'
So with all their might
They're holdin' on for life
