I almost went too far
I almost turned my back
On everything I hold dear
How'd I get off track
Show me a sign, one gentle touch
To remind me why I'm here

If ever I needed you
If ever I needed us
Every ounce of sweet devotion
That makes our love so true
I need you right now
If ever I needed you

It's the same old routine
We're both caught up in
If we don't change something soon
Our forever's gonna end
Shake me up, down to my soul
Baby, that's why I'm still here

If ever I needed you
If ever I needed us
Every ounce of sweet devotion
That makes our love so true
I need you right now
If ever I needed you

If ever I needed you
If ever I needed us
Every ounce of sweet devotion
That makes our love so true

If ever I needed you
If ever I needed us
Every ounce of sweet devotion
That makes our love so true
I need you right now
If ever I needed you
