I'll assure you and ensure you you're the one I love  
All the Gods up in heaven sent you from above  
Sent you down to Earth just to make me smile  
Don't you know you're the only thing that's worth while  
In my life, be my wife, don't turn me down  
You're the best, so say yes and I will never frown  
You know you got me on the edge of happiness and  
despair  
Doesn't matter if I slip cause I know you're there  
To catch my fall, all in all I'm havin a ball  
Whether we're dancin and romancin or leanin on the  
wall  
When I'm with you, girl, I could never be bored  
You're so fine and you're mine yes, I thank the Lord  
Every minute of the hour, all hours of the day  
There's one thing I been dyin to say  
I love you

You got me on the edge

We met by chance, I walked in when you were workin  
I gave you a glance, advanced and caught you smirkin  
At me, the E-v-e, you know the rest  
I asked you for your number and began my quest  
To conquer your heart, body, soul and mind  
You came around and I found that you were one of my  
kind  
So I laid the same old drag, whispered in your ear  
But that didn't work and I started to fear  
That you might be too much woman for Everlast to  
handle  
In my eyes no girl could hold a candle to you  
I was confused - hey yo, what's my next move?  
My boys said, "Relax E, and act real smooth"  
But that approach wasn't workin and I realized  
That this girl was really different  
That scared me a little but it also intrigued me  
I wanted to know if you were serious, not tryin to lead  
me  
On, so I confronted you and asked you the time  
You said you felt the same way for me and that you'd

be mine  
Forever

You got me on the edge

So there we were, a match made in heaven  
I was thinkin about you girl, 24/7  
Every minute, every hour, all day and night  
In my bedroom or the shower or when ridin my bike  
You're on my mind all the time and my rhyme's  
redefined  
Secret letters to you and they're boldly signed  
By me because I love you and I always will  
And the thought of bein without you girl, makes me ill  
I love you, I need ya, I'll clothe ya and feed ya  
You'll never be lonely cause I'll always be there  
We'll be together side by side  
And when I'm out with my boys I brag about you with  
pride  
I took a picture of you wherever I went  
Took you anywhere you wanted, no matter what I spent  
I have to admit girl, your lovin was def  
But it tore me apart when you left  
But now I realize I'm the one to blame  
I took a thing like love and turned it into a game  
And even though I regret it, I couldn't let it  
Show cause I didn't want you to know  
The pain that I was feelin deep in my heart  
But now I think I'm ready to make a new start  
With you

You got me on the edge

Well, we've been through a lot together  
Throughout the stormy weather  
The only thing I'm sure of is love lasts forever  
I know my love is true and I know you love me too  
There's only one thing left for you and I to do  
Regain the bond that we once had  
And once we accomplish that girl, we'll both be glad  
I'm better off for it, you can't ignore it  
The love that we feel, we both cherish and adore it  
So let's stick with it through joy and through sorrow  
Take it one day at a time and not worry about tomorrow

You got me on the edge
