Lay back babe, just let it go.  
Cause there's something you should know.  
I have been waiting, oh so long,  
For this chance to come along.  
My mind's made up, my heart is for sure.  
Trust me to love you forever more,  
And stay by your side for the rest of my life.

Chorus:  
Let's do it right, just you and I,  
One step forever together.  
It's starting tonight, and it's true  
When i say i do,  
I want you all to myself,  
Don't want anyone else, but you.

Take my hand, don't be afraid,  
I will let nobody hurt you, not ever again,  
And in time, we'll touch the sky,  
For I realized and I started to fly.

When you're all that I am, and you're all that I need.  
Beside me forever, you're all that I see,  
I can't live without you, I'm down on my knees.

Let's do it right, just you and I,  
One step forever together.  
It's starting tonight, and it's true  
When i say i do,  
I want you all to myself,  
Don't want anyone else, but you.

My mind's made up, my heart is for sure.  
Trust me to love you forever more,  
And stay by your side for the rest of my life.

Let's do it right, just you and I,  
One step forever together.  
It's starting tonight, and it's true  
When i say i do,  
I want you all to myself,

Don't want anyone else, but you.

Let's do it right, just you and I,  
One step forever together.  
It's starting tonight, and it's true  
When i say i do,  
I want you all to myself,  
Don't want anyone else, but you
