Listen now, I am afraid of everything  
When you told me I was special  
It was the happiest moment for a long, long time

Listen now, I keep forgetting your name  
When you laid down on the kitchen floor  
It was the happiest moment for a long, long time

We seek new seed new  
Some revolutionary  
And you will never get a hold  
We seek and we will find  
Reason to stay alive  
The price has never been this low

Listen now, I was afraid of everything  
Then I straightened my head up  
It was the happiest moment for a long, long time
