### "Ready To Lose"

Thinking about the house at waters  
Thinking about losing  
Stuck in the barrel, feeding the pain  
Facing the consequence

Repent the mind at your command  
Blood control the face and I'm rearranging of desires

Ready, ready to lose the privilege  
Ready, ready to lose the privilege

Assumption of cultures, spin me away  
I'm serving the blood line  
Fear of suffering, fear of loss  
Sucked in your birth rights

Ready, ready to lose the privilege  
I'm more than happy  
A transfer of positions  
Ready, ready to lose the privilege  
Of finding the sequence  
An end to succession
