Wait up, where do you think your going without me?
Hang on I'm really trying to hurry, can't you see?

Coz tonight he's gonna twist and shake
I wonder which girl's hand he'll take
And I'm hoping yeah, hope it will be mine
That's why I gotta look right, just pray and wish he
might
Wanna shake, shake, shake and twist with me.

Wait up, where do you think your going without me?
Hang on I'm really trying to hurry, can't you see?

Coz tonight he's gonna twist and shake
I wonder which girl's hand he'll take
And I'm hoping yeah, hope it will be mine
That's why I gotta look right, just pray and wish he
might
Wanna shake, shake, shake and twist with me.

And who knows he could be mine
If I play my cards right
And you know he looks so fine
Will he notice me tonight?

Wait up where do you think your going without me?
Hang on I'm really trying to hurry, can't you see
And if you wait another minute, then I'll make you see
I'll look just right and you'll wanna dance with me
